

# SHARE YOUR EXPERTISE

Call for LTC Resident, Family and Clinical Experts  
to co-create clinical cases in ALPHA

The ALPHA Program is looking for **LTC residents, family members, educators, PSW and Nursing faculty and psycho-geriatrics resource consultants** to contribute their expertise, lived-experiences and time to co-create learning materials for ALPHA.

## What is ALPHA?

ALPHA, our Accelerator for Learning Inter-Professionally in Healthcare App, is a virtual learning, coaching and community platform with simulated cases and interactive activities grounded in an educational game. ALPHA is being used to orient new team members and to teach students how to care for residents and families and collaborate interprofessionally in LTC.

## What are the expectations and time commitment of being an ALPHA Expert?

- Experts will take part virtually in one or more Case Build Co-Design Sessions
- ALPHA Case Build Co-design Sessions are scheduled every Friday afternoon starting June 11 until the end of July
- Experts contribute to modernizing LTC workforce orientation and augmenting student clinical experiences and specialization in LTC

## What are the benefits of being an ALPHA Expert?

- Experts have the opportunity to bring their unique perspectives to inform and influence the learning experience for healthcare providers
- Experts help better prepare healthcare providers to provide compassionate and high quality care
- Becoming an ALPHA Expert is a great way to support and strengthen the workforce in LTC
